MEMORANDUM FOR: Chairman, CSPB Support Committee

SUBJECT: SE Division Operational Program FY 1956-57

1. Subject program states no requirements for training support. However, it does reflect a substantial increase in personnel requirements in the foreign nationals category in support of FI projects over and above the on-duty strength as of 1 March 1955.

2. It is conceivable that requirements may be levied upon the Office of Training to assist the SE Division in the training of foreign nationals either within the United States or overseas. If this should prove to be the case, the Office of Training requests earliest indication of the extent to which it will be required to accommodate such personnel in the United States or to send teams of qualified instructors overseas for this purpose.

3. It is further noted that two projects specifically involve continuation of training of personnel of foreign intelligence services. The Office of Training requests additional specific information regarding the extent to which SE Division requires OTR support of these projects.

FOR THE DIRECTOR OF TRAINING:

Chief, Plans & Policy Staff

OTR/LES:mjz
